Sharp's range of Plasmacluster™ Ion Technology products protect you from contagious viruses such as human flu. Its efficacy has been proven by numerous test reports from around the world.

The ions form hydroxide radicals that remove hydrogen from surface proteins of the viruses, thus eliminating the viruses as high as 99.9%.

Efficacy of Plasmacluster™ is proven:

- to eliminate human flu virus
- to eliminate bird flu virus
- to reduce growth of adhering mold
- to reduce adhering odour
- to eliminate allergens from dead mites & dust mite feces
